

Organics the Easy Way®

Grand Prize®

Organic-Based Fertilizer for Roses and Flowering Plants

Beautiful Gardens, Prize Winning Flowers

- Outstanding Results
- The Best Natural Organics
- Superior Proprietary Formulation
- Safe; Easy-to-Use; No Dust
- Scientifically Proven
- Environmentally Beneficial

How To Use

For New Flower Beds:

Apply directly to the soil after tilling or turning and prior to planting. Use approximately 1 kg per 5 sq. m. (4 lbs. per 80 sq. ft.) Rake into the top 4 cm (2 inches), then plant.

For Established Flower Beds:

Sprinkle liberally around base of plants and work into soil. Apply approximately 1Kg per 10 sq. m. (2 lbs per 80 sq ft or 1/4 cup per sq. ft.) 2 to 3 times per season. *Grand Prize*® can also be side-dressed or broadcast where gardens are already established.

For Roses—Our Specialty:

An average size rose bush will need approximately .25 Kg (1 cup) of *Grand Prize*® 3 to 4 times a year. (1 cup weighs approximately 4 oz. One bag yields approximately 16 one-cup applications.) Sprinkle around base and work lightly into soil. Water well.
